2026 DUFFER GOLF

Men and Women Welcome!

STATISTICS

Another year of wasted paper for stats that could have been used for something more beneficial, such as toilet paper, a piñata, or a phone book for Pete Schmehl's golf cart seat. *Duffer Statman Jon Beers.* *Dang it, musky!*

Statman's Notes:

This was a major transition year for keeping Duffer League stats. After years of custom written spreadsheets in Lotus 1,2,3 and then Excel, we finally made the switch to a web program and phone app called ***Golf League Tracker***. I picked this app for its vast amount of stat tracking primarily, but secondarily because it gives a live leaderboard while we play. We can see what hole each golfer has completed, the hole scores, net, gross, to par, etc. It is fun to see who takes the early lead and then who comes on strong at the end to win the weekly match. The software then enables us to make the announcement at dinner of the top 5 finishers. Some people even checked the scores from home if they did not play that day! It worked well, once we got it figured out. Many players learned how to enter scores live at the course. It saved a ton of time after the round by just closing out the scores and letting the app go to work behind the scenes.

It was a great year again, if you do not count the various ailments and injuries that held out a number of players from competing, and that we lost 6 of the 30 weeks for rainouts or low turnouts. Other than that, the weather and course conditions were excellent. Plus, we had our first female El Prez, Diane Hettinger, who did a fantastic job of scheduling the weekly events, a few special events, prizes, giveaways, and many weeks of cupcakes after dinner. See the following pages for who won the points in 2026, and all of the stats you ever wanted!

So here we go, after compiling all the stats in our new app and analyzing everything, this is my general summary for your amusement:

1. **Players**: We had 24 Duffer members on the roster and 21 played this year (23 in 2025). One introductory player only played one practice round and never rejoined us (John Vrobel), and 7 players that played only 10 rounds or less due to health or schedule issues. That left us with 13 players that played on a "regular" basis, and we averaged 12 players per week. No new members this year.
2. **Rounds**: We got in all 4 practice rounds in April, 15 of the 21 regular rounds, and all 5 championship rounds, for a total of 24 weeks of fun (2 weeks less than 2025) of the 30 scheduled weeks. Four rainouts and two weeks of low attendance cancelled the play and/or points for those weeks. We set the minimum at 8 players to make it a sanctioned event for points. One of the low attendance weeks (July 23 at Rich Maiden) I had entered the scores into the app but applied no points. As I compiled the yearend stats, the stats got all muffed up from doing that, so I deleted those scorecards for that week which changed some stats and handicap calculations. For best attendance, Beers made all 24 weeks (*I did not realize until now!*...), Champagne and Diane made 22 of the 24.
3. **Courses**: Prez Diane did a survey prior to the season to see what everyone's favored courses were. There were 18 different courses scheduled to be played. Six of them were scheduled to be played twice, and three played 3 times. However, only one of the triples was played 3 times, Willow Hollow. Manor was scheduled twice and rained out twice. Crossgates was scheduled once and rained out. Bella Vista was scheduled once but did not have enough players to count. Of the 16 courses that were played, 8 of them had at least one round with 12 or more players. Best attended was 16 players at Rich Maiden on April 23rd for a practice round.
4. **Average Gross scores:** We improved by 1 stroke from last year, we averaged 94, last year it was 95, and 2023-2024 the scores were 91's when you guys were young and vigorous, like me….
5. **Average Net scores**: We averaged 74.4 net, 3.5 over par, which is about 3 to 4 strokes higher than the last several years. That could be because we changed the handicap calculation method this year to the 2020 USGA method, and we voted to use the best 6 of the last 12 rounds in order to quickly adjust handicaps for players that do not play as often.

6. **Handicaps:** As a result of the change in handicap calculation, and poor play, handicaps went up this year from 24.9 to 26.2. We noticed it immediately in April during the practice rounds and they stayed higher throughout the year. We basically started handicaps from scratch using the new app. I know what you're thinking, if handicaps are higher, gross scores are lower, then why are net scores also higher? Well, maybe 'cause we are gradually falling off the golf cart wagon and losing our mojo. Despite all of the changes, 6 duffers improved their handicaps since last year, 14 got "worse", the rest stayed the same because they probably did not play much.

7. **Winners:** This is my favorite stat, it gives us an accurate and true picture of how well our handicap system evens out the scores and fun, producing different winners all year long! We had 15 players win this year (12 last year), including the 4 practice rounds, out of the 24 weeks of play, and the 13 regular players and 7 part-timers. Six players won multiple times, and Tom Goserud had the most wins with 5. Excellent job Tom, hitting a bucket of balls before each round certainly paid off! (*true story*…)

8. **Winning Scores**: Winners shot as low as 17 under par (net 55's by Price and Krepps at Lebanon Valley and Berkleigh), to as high as 1 over par by Mitch Hettinger at Golden Oaks. You know it is a bad week if Mitch shoots 1 over par and nobody can beat that! gees…

9. **Points**: We used some old familiar ways of assigning points and determining a winner. It worked fairly well, rewarding those that played often during the regular season, but still giving a chance to players that could catch-up during the championship rounds. Here is how we did it: Each regular season event was 3pts to the winner, 2pts for 2nd–5th, and 1pt for 6th-10th. We had one event at Fairview for double points. At the end of the regular season the points leader, Diane, had 27 points. Each of the championship playoff weeks were 25pts to the winner, 22pts for 2nd, 20pts for 3rd and so on to 0. As I said, players could still finish well in points despite not playing much during the regular season. Flott and Price did not earn too many points in the regular season, but came on strong during the championship run. The highest average points per week were Bonneville, Mitch, and Price. Mitch had heart surgeries and returned for some of the championship rounds, but Bonneville and Price stayed home and played *Mah-Jongg* during the regular season and showed up for the playoffs to earn BIG points. Only 5 players held the weekly points lead. Diane led the most weeks at 10, Goserud for 8, Beers for 6, Champagne for 4, and Schmehl for 2. Diane and Goserud were in the top 4 all season long!

10. **Champion**: We determined the Champion using 4 of the best 6 points from the final regular season points total + the 5 championship week points. So if you missed a playoff week it did not affect your points too much. This year's **Champion is Diane Hettinger** who had 27 points during the regular season, a win and two 2nd places during the championship weeks to hang on to the lead with 96pts. Beers took an early lead during the first two weeks of the championship rounds, but Diane's win the third week at Lebanon Valley put her back in first place for the final 3 weeks. She did not even earn any additional points the last week and could have stayed home and started baking pumpkin pies. Goserud could have won the Championship if he had won the last week at Blue Mountain, he would have had 98 points to Diane's 96. Goserud was in the hunt all year, swapping the points lead with Diane! Champagne (last year's champ) came on strong the last couple of weeks and was 3rd in points, Beers sank to 4th, and Price captured 5th even with only 8pts from the regular season. We had 5 different winners during the Championship weeks: Rubright, Goserud, Diane, Mitch, and Wardhammar. Again, congratulations to Diane, what a great season multitasking as Prez, babysitter, dog trainer, and Champ!!

Enjoy the following pages of mind numbing numbers…you bunch of golf geek-heads! I love compiling this crap for you guys!

Best wishes for the Holiday Season from your longest running temporary Statman, Jon Beers

2026 Duffer Champion Diane “Cupcake” Hettinger looks fully focused on being the Duffer President, a new puppy, making cupcakes, a husband on the mend, making crafts, hitting fairways, making putts, and *winning a Championship!*

1. The Championship was determined by the points from the regular season and the points from the 5 championship rounds, taking the best 4 of the 6 points. The weekly points that are crossed out were not used for the total championship points.
2. Regular season weekly events were worth 3 pts for the winner, 2 pts for 2nd to 5th, and 1 pt for 6th thru 10th.
3. Some special weekly events had special points, such as double points week.
4. The 5 Championship rounds were 25 pts to win; 22, 20, 18…2, 0 etc for other players.

CHAMPIONSHIP FINAL TWO ROUNDS RESULTS

Note, the round numbers do not match the spreadsheets. Why, you ask? Well, I learned early on that when we have a rainout, do not delete the round in the Golf League Tracker app. It messes things up. I later learned that there is a "rainout" box to check to cancel the match and points for the week. Duh…
